Step 1: Find connections between each article and your topic.
Article 3 and 4 share an author. Both make a point about y and c in the following ways...

Article 4
Agrees with article 1, but also says x which differs in a,b,c ways.

Article 5
Both this article and article 3 fail to discuss factors mentioned in article 6 (e.g., x, y, z).

Article 6
Agrees with articles 2 & 4, but disagrees with articles 3 & 5.

Article 2
Really explains why y is an important factor because...

Step 2: Find connections between each the different articles.

How do the various authors agree?

How do the authors disagree?

Why?

Are there things one author addresses, but another omits? Why?

Can you identify/use any counter-arguments when authors disagree to support your argument?
